

## ADDITIONAL PROJECT INFORMATION

Project Title:

SWRP Project ID Number:

Submitted By:

1. Provide a specific location for construction or testing of your project:

2. Provide a brief narrative description of how your project will achieve storm water capture:

3. If your project captures storm water, will it capture at least the 85<sup>th</sup> percentile, 24-hour storm?

YES /  NO /  N/A

4. If your project includes trash capture as a benefit, does the project include a full capture system?

A full capture system is capable of trapping all particles that are 5 mm or greater, and has a design treatment capacity that is not less than the peak flow rate resulting from a one-year, one-hour storm.

YES /  NO /  N/A

5. Will your project be located on public land?  YES /  NO

If no, will an agreement with a landowner be needed?  YES /  NO

If yes, at what time will this agreement be needed?

6. List any entities that have agreed to sponsor any funding match and operation and maintenance costs:

7. List any external plans or reports which include your project:
