## Questions

- 1) **VISION:** In 10-15 years, every landscape (new and existing) in the Russian River watershed incorporates some or all of the RRFLG Principles and Practices.

How did we make this happen?

- 2) What are the barriers to implementing the RRFLG Principles and Practices and how can we address those barriers?
- 3) What tools, trainings and resources would be most helpful to you in increasing use of the RRFLG Principles and Practices?

**Thank you  
for being here today!**
